FTA Yearbook of Road Transport Law 2009

The FTA Yearbook of Road Transport Law is considered to be the bible for an industry dominated by rules and regulations. It can be found on the desk of virtually every transport and distribution manager – well thumbed and readily available.

The **2009** edition of the Yearbook will again reflect many wide-ranging and significant changes to the complex legislation which controls goods vehicle operation. All sections will be revised and updated as appropriate.

The Yearbook draws on the unrivalled expertise of the Freight Transport Association which is one of the largest and most effective trade associations in the UK. We have over 13,000 members which include world and market leaders and over 35,000 potential purchasers. Overall FTA members operate in excess of 200,000 commercial vehicles, that's over half the UK total.

With an initial print run of 14,000 the Yearbook offers high circulation and year round exposure for your products and services.
