

Fuel Tanker Conference

Tuesday 2 December 2014

Sponsored by:

The voice of the industry for 125 years

The latest developments and legislation in fuel tanker operation

FTA's industry leading Fuel Tanker Conference will explore the latest developments in fuel tanker operation, health and safety and the latest tanker innovations. Key speakers will discuss the impact they may have on your business and how they will affect and improve the specification, maintenance and testing regime of your commercial vehicle tanker fleet.

The conference will provide fleet managers, vehicle engineers and those responsible for specifying road fuel tanker design, with a unique insight into future legislation and enforcement priorities, providing best practice advice to ensure the safety, efficiency and compliance of your operation.

Why you should attend

- ✓ Exclusive opportunity to hear from the authorities and industry experts
- ✓ Confidence in being up-to-date with the very latest information, guidance and best practice advice surrounding forthcoming legislation and developments
- ✓ Share ideas and solutions with industry colleagues

#FuelTanker

Prices

FTA members

£325 + VAT first delegate/£275 + VAT subsequent delegates

Non-FTA members

£385 + VAT first delegate/£345 + VAT subsequent delegates

Date, time and venue

Tuesday 2 December 2014

9.30am - 4.00pm (registration from 9.00am)

National Motorcycle Museum, Birmingham

Booking Terms and Conditions: Cancellations must be received 14 days prior to the conference in order for fees to be returned in full (no refund of fees is possible if less than 14 days notice of cancellation is given). Substitution of delegates is allowed at any time without cost.

The programme

09.00 - 09.30	Coffee and registration	12.45 - 13.15	Latest developments with fuel tanker components <i>Michelle Castle, Emco Wheaton</i> Fuel tanker component manufacturer Emco Weadon will present on the challenges manufacturers experience in design, development and innovation associated with fuel tanker components, the very latest safety initiatives and engineering solutions for fuel tankers.
09.30 - 09.40	Chairman's welcome and introduction <i>Andy Mair, Head of Engineering, FTA</i>	13.15 - 14.15	Lunch
09.40 - 10.20	Fuel tanker dangers and safe operation <i>Stuart Pointer, Health and Safety Executive (HSE)</i> Investigation work carried out by HSE regarding construction and approval issues with fuel tankers has led to unexpected exceptional checks being required on certain tankers incorrectly approved, which do not meet ADR requirements. Delegates will hear the HSE's findings, the required actions on operators, and their priorities going forward.	14.15 - 14.50	Safe Loading Pass Scheme – 2014 re-launch <i>Peter Davidson, UK Petroleum Industry Association (UKPIA) and Sally Thornley, FTA</i> Representatives from UKPIA and FTA will present on the aims, history and the latest revisions and key features of the scheme, and the audits required for all workshops that carry out safe loading pass scheme inspections.
10.20 - 11.20	Fuel tanker regulation and issues with tanker approvals The Department for Transport (DfT) will present on the findings of research on construction issues and tank integrity which has resulted from the investigation work carried out by HSE. The session will also cover accident data review and analysis, full scale testing and modelling, defect and fracture analysis research undertaken.	14.50 - 15.25	Challenges with fuel tanker operation <i>Mark Binns, Hoyer</i> Hear the challenges faced by fuel tanker operators over ever-changing compliance requirements under ADR, the demands and requirements associated with the highly regulated fuel tanker industry, together with other challenges to do with vehicle design and developments.
11.20 - 11.40	Coffee	15.25 - 15.55	Energy Institute initiatives <i>Toni Needham, Energy Institute</i> The final session of the day will feature the Energy Institute presenting on the work covered by its Road Tanker Panel and various initiatives and projects undertaken by the Institute of interest to tanker operators.
11.40 - 12.10	Fuel tanker inspection and certification Delegates will hear the revised conditions of appointment for Authorised Inspection Bodies, who are appointed by DfT to carry out fuel tanker inspection, testing and certification in the UK. The session will also cover a new online tanker certification system and dangerous good vehicle database, and how whole vehicle type approval affects fuel tankers.	15.55 - 16.05	Chairman's summary
12.10 - 12.45	Fuel tanker and ADR testing and enforcement <i>Stephen Whitehart and Nigel Maden, Driver and Vehicle Standards Agency (DVSA)</i> DVSA will inform delegates on the latest developments on fuel tanker and ADR enforcement and compliance, including streamlining the ADR testing process, guidance for Authorised Testing Facilities regarding bookings for ADR tests and type approval processes for fuel tankers under the Individual Vehicle Approval scheme.
