

Transport Awareness for Directors and Senior Managers

Who should attend

This course is designed for directors and senior managers who are ultimately responsible for the legal operation of a company's vehicle fleet.

Key benefits

This course provides senior management with a sound understanding of the legal and operational requirements involved in the transport function. The course ensures that candidates are fully aware of the legal requirements in respect of an operator's licence and of the systems that are required to meet this important obligation.

Course content

- Operator licensing system
- Drivers' hours legislation
- Drivers' records legislation
- Driver licensing
- Vehicle maintenance
- Update on enforcement activities
- Working Time Directive

Course duration

1 day

Non-residential course
