

# Management of Public Authority Transport

## Who should attend

This course is designed for existing/future managers and supervisory staff involved in the management and operation of freight and passenger fleets used in public service. This course counts towards CILT Continual Professional Development requirements.

## Key benefits

This course provides public authority management and those private sector businesses which provide public services with a detailed understanding of issues relating to compliance with EU and UK legislation and standards.

By the end of the course delegates will have the knowledge to ensure that their fleets are operated in a legal and efficient manner and will understand the requirements of passenger and freight vehicle regulations.
