

Driver Awareness, Assessments and Corrective Training for Light Vehicles

Our instructors have been professionally trained and are DSA/RTITB registered as driving instructors.

Who should attend

This course has been designed for drivers of cars, minibuses and light goods vehicles (up to 7.5t) and covers the theoretical and practical aspects of safe and responsible driving. An assessment is carried out over a pre-selected route in the driver's vehicle, therefore drivers must already hold the appropriate full category of licence entitlement to drive their type of vehicle.

Key benefits

The course addresses subjects such as fuel economy, safe loading, drivers' daily checks, and accident/breakdown procedures. During the practical session, one of our instructors will assess the driver's strengths and weaknesses and discuss corrective action; a full report will be issued for each driver:

Course content

- Hazard perception and avoidance
- Driver awareness
- Starting/moving off
- Vehicle control
- Road behaviour
- Mirrors and signalling
- Signs
- Attention to other traffic and road conditions
- Manoeuvres
- Driver attitude
- Highway Code
- Vehicle condition

Venue/dates
