

# LGV (HGV) Driver Assessments and Corrective Training

Our instructors have been professionally trained and are DSA/RTITB registered as driving instructors.

## Who should attend

This course is designed for drivers of heavy/large goods vehicles to assess current driving practices and recommend/provide relevant corrective training. An assessment is carried out over a pre-selected route in the driver's vehicle, therefore drivers must already hold the appropriate full category of licence entitlement to drive their type of vehicle.

## Key benefits

The detailed assessment can identify your drivers' strengths and weaknesses and corrective training allows potentially dangerous practices to be eliminated and improves general safety and best practice. It also serves to make drivers more aware of their driving habits, fuel economy and vehicle condition. A full report is issued for each driver.

## Course content

- Starting/moving off
- Vehicle control
- Road behaviour
- Mirrors and signalling
- Signs
- Attention to other traffic and road conditions
- Manoeuvres
- Driver attitude
- Highway Code
- Vehicle condition
- Fuel efficient driving

## Venue/dates

This course is delivered in-company. Please call 08717 11 22 22\* to discuss your training requirements.

## Prices

**£360 + VAT** per half day (maximum 2 delegates).

**£710 + VAT** per full day (maximum 4 delegates).

*"We were extremely impressed by the knowledge, experience and attitude of the trainers. The course was delivered at a good pace and the information we took away with us has already been put to good use. Taking part in this course has enabled us to assess our own lgv drivers, reduce non-compliant driver behaviour and make recommendations to improve the operations of our fleets."*

**Bryan Taylor**, Driver Assessor, Carlsberg UK Ltd
