

Vehicle Defect Reporting for Drivers

Who should attend

This course is designed for drivers who require training on the processes and reporting methods of daily driver walk around checks in order to comply with current legislation relating to vehicle defect reporting.

Key benefits

The course demonstrates to drivers the legal requirements in respect of carrying out daily vehicle checks, their responsibilities and the importance of defect reporting in relation to the compliance of a company's operator licence.

Course content

- The regulatory requirements in respect of key aspects of the vehicle
- The procedure of carrying out checks
- Identifying key components to be checked
- Understanding the defect report forms and their completion

Venue/dates

This course is delivered in-company. Please call 08717 11 22 22* to discuss your training requirements.
